

*Thank you for considering the Norwich Bookstore to represent your book. We review thousands of books each year; some are listed in glossy catalogs from big publishers, and some brought in the door by the author. Our choice about what to accept is based on a number of factors, informed by many years in the book business. Sometimes we can accept books from small presses and independent authors only on consignment. While we welcome the opportunity to review all books to determine if they complement our selection, it takes time to read and evaluate each proposal.*
